WELCOME TO DUISBURG!

We are glad that you want to explore Duisburg. To help acquaint you with our many different tours, you can choose from a variety of topics and areas:

Industry & monument – This is industrial culture “hands on”: former places of work and impressive industrial cathedrals reloaded.

Art & culture – Cultural highlights, art and the history of the city can all be found here: from life in the Middle Ages to architecture of the 21st century, from art in public areas to the Creative Quarter.

City & adventure – The focus here is on urban city life and adventure tours – from city centre to the various districts, each with its own distinct charm. Experience it in a city tour, classic tour, costume tour or interactive discovery tour.

Leisure & recreation – For anyone looking for something special in a nature setting, who doesn't mind combining it with a physically ambitious challenge or who just wants to kick back and relax. You will get to know Duisburg on the move.

Children's tours – We have not forgotten children in planning our tours.

Company tours – Tour manufacturing plants still in operation and companies' “open house”. Let us treat you to a look behind the scenes.

We wish you a pleasurable and interesting stay in Duisburg. If you have any questions, we will be glad to help you out any way we can. Your Duisburg Tourist Information team.

In the evening, lighting designed by the British artist Jonathan Park transforms the ironworks into a fascinating spectacle. Explore this unique landscape on a tour with our guide or a former worker at the steel mill, who can tell you from his own experience how workers used to “slave away” here.
